### Jesus of the Week

He died for your sins. He also kind of looks like that guy from Miami Vice sometimes.

Jesus of the Week is not your standard bible study. You might say it's a museum tour through various sanctimonious pictorials. Guided by a severely warped Sunday School dropout.

Peter Gilstrap scribes his off-beat observations on whatever snapshot he can get his hands on. [All of them feature the same "individual" (re: divinity) who Gilstrap intimately refers to as "JC."] Sometimes, He is "looking fine and fancy with that little beard and Jheri-curl'd coif." Sometimes He's the type of dude who might gush "No need to call me Mr. Christ-it's Jesus, bud!"

### Navel Classification System

The Anatomy of the human navel is quite complex and hard to classify in absolute terms. While unique like a fingerprint, the indentifying factors fluctuate according to weight, age, and after having given birth. It keeps things very interesting for the Navel Observatory Students.

### THIS TRUST WILL KILL AGAIN

You knew what I was going to say. And when I didn't, I did anyway, it seems. And I'll survive with selfrespect intact. And you?

Every freedom needs a trust. And this trust will kill again for you. And someone else wont believe their eyes. While a thousand will believe it's true. This trust will kill again for you. Through tales of objectivity you shake my hands. All that objectivity could break them both.

'Cause whatever I say, context aside, you've got what you need to make sure I say what they want to read. It wont happen again, and I'll survive with selfrespect intact.

**Thought for the Day: Oriday August28**

Next week, I shall rest our debate about fate versus free will. First though, here's part of a poem from Lorraine Nickson in Swindon. She wrote it for a friend who 'believed she had no choice'. "Your heart is always guiding you. When your path seems blocked... Look for the message in the moment. Listen to your heart, It points the way. Never insisting, it waits for your choice, Ever patient, yet ever guiding forward. You have the power to move mountains. This life is not the prison of your soul." Make Money Fast, Easy, Quick, and Legally! How to turn \$6 into \$6,000!

READING THIS COULD CHANGE YOUR LIFE!

I found this on a bulletin board and decided to try it. A little while back, I was browsing through newsgroups, just like you are now, and came across an article similar to this that said you could make thousands of dollars within weeks with only an initial investment of \$6.00! So I thought, "Yeah right, this must be a scam", but like most of us, I was curious, so I kept reading. Anyway, it said that you send \$1.00 to each of the 6 names and address stated in the article. You then place your own name and address in the bottom of the list at #6, and post the article in at least 200 newsgroups. (There are thousands) No catch, that was ..... [Chat](#)

It is very difficult for the FDA to enforce any laws controlling cloning. Do we monitor all labs everywhere? And what punishments should be metted out for offenders? And what about SECRET unknown labs, working underground with private funds? Shades of Frankenstein? And how would you know, if a prospective mate or social contact, is not engineered? Will your girlfriend have a tongue like a lahma? Will your husband have attributes of a donkey? Only when these types of crises occur, will the public demand control. But then it will be too late. What do you get if you cross a man with a hamster? A Manster. A 1960 era horror movie. [chat](#)
